Hi s22

Happy New Year, I hope you had a nice break.

I just wanted to let you know that I have updated the [rapid antigen testing page](#) on BGA to include links to some states (WA and QLD still don't provide clear information, but I imagine this will come shortly) and information about price gouging. I've also updated some of the content to remove the references to close contacts and telling people to get a PCR test if their RAT comes back positive because it is changing in different states.

We'll keep an eye on it and update as needed but will keep you in the loop

Thanks,
s22

Yeah, it is still horribly discordant, but I am wondering if we should.

Maybe we can just add a line saying, "Different states and territories have different rules. To check your region please visit. Business restrictions during COVID-19 | [business.gov.au](#)"

What do you think?

Sorry about the bit-wise updated. I expect this will continue into the new year.

Hi s22

Yes, we have state links throughout most of our COVID content:

- [COVID-19 vaccinations and your business](#)
- [Business restrictions during COVID-19](#)
- [COVID-19 financial support business](#)
- [COVID-19 financial support employers](#)
- [COVID-19 support for your industry](#)
- [Keep you and your employees safe during COVID-19](#)
- [Look after you and your customers during COVID-19](#)

When I was drafting the rapid antigen testing page, the state information was unclear and inconsistent so I thought it would be better to leave it off. We can take another look at it to see if it has improved and have something similar to the [COVID-19 vaccinations and your business](#) page if there is enough information (see below example):

Requirements in your state or territory

The requirements on proof of vaccination and medical exemptions for customers and employees are different in each state and territory, so it's important to stay up-to-date with the latest advice and requirements:

Open all 

Australian Capital Territory

New South Wales

Northern Territory

Queensland

South Australia

Tasmania

Victoria

Western Australia

s22

Do you know if we have a page on BGA which has links to the state health websites?

I have had a few requests from businesses to add links to the state health pages for state directives and restrictions and am wondering whether I should draft a new subheading or if there is a pre-existing page which I can just point to?

Thanks

s22
