**Subject:** Discussion on Indo-Pacific carbon offset scheme

Hi David

By way of introduction, my name is s47F and I am one of our govt. relations reps in Canberra. I believe you attended the meeting with some of our senior executives recently, which was very well received, so thank you for that.

<https://www.industry.gov.au/news/australia-invests-in-carbon-offset-scheme-for-indo-pacific>

I understand you and your team are leading the work on the above mentioned scheme announced on the 23<sup>rd</sup> April.

If possible, I would appreciate a short discussion with you on this to understand some of the specifics, future dates and engagement opportunities.

Kind regards

s47F

**Subject:** Summary of Woodside emissions reduction activities re. COP26

Hi s22

Thanks for the chat yesterday, please find below technology and new energy areas where Woodside has activities or expressed an interest to the Department re. emissions reduction.

s22

3. **Indo-pacific scheme:**

- a. A component of our offsets portfolio is 'international offsets' and we have been encouraging clarity in standards around these as we move into the Paris period.
- b. We advocate that the units must be high integrity and be recognised by our key customers and their governments.
- c. We recognise the work of the Government in the establishment of the Indo-Pacific Offsets Scheme and have been working with DFAT and DISER through the IETA CMI Markets for NCS Taskforce on key considerations for this scheme. Ultimately the ability to utilise international credits for compliance should be a goal.

s22

Thanks
