

Hi Patrick,

As per the phone conversation, I would like to question the "reference to ABS" in the submission by Australian manufacturer's.

I have obtained the copy of the ABS Import Statistics: 3102.30.00-05 and calculated as per below:

Period/time	FOB Value (AUD) per m/t
July 2014 - September 2014	557
September 2014 - December 2014	464
January 2015 - March 2015	478
April 2015 - June 2015	502

Total volume per annum is 2,648.8 m/t
Average yearly price FOB Value AU\$494

As it can be seen from calculation based on the above mentioned ABS Import Statistics, all the numbers in the submission by Australian producers are incorrect.

Patrick, this raises a serious question regarding the legitimacy/validity of the calculations, mentioned in the report.
Most of which are confidential...

Regards,
