**Re: Dumping Investigation ADC 240- Rod in Coils Exported from
Indonesia, Taiwan and Turkey
Application for Extension of Time for Submission**

Dear Sir/Madam,

We, Quintain Steel Corporation (“QSC”), as a Taiwanese producer and exporter of the subject product, would like register as an interested party and respond the questionnaire of the dumping investigation ADC 240 on Rod in Coils exported from Indonesia, Taiwan and Turkey.

Additionally, we respectfully request a one month extension, from 20th May to 19th June, to sufficiently complete the Exporter Questionnaire and its spreadsheets. First, QSC, as all other corporations subject to Income Tax Act of Taiwan, needs to completely file an annual income tax by 31st May. As such, all personnel of our accounting and financial department have to devote most of time during the period of May to prepare the application and report apart from daily workload. The 2014 annual meeting of shareholders too is expected to be followed subsequently in the beginning of June. In addition, nearly one-week-long public holiday, including May Day (1st May) and the festival from 31st May to 2nd June, land in within these lousy

months. Accordingly, we barely manage to submit responses in sufficient details by 20th May scheduled initially.

The questionnaire requests much information from multiple departments of QSC and requires huge work to collect data. Being inexperienced in the investigation process, the tight schedule put us at disadvantage indeed because it needs more time to understand and comply with the requirements. We highly appreciate the ADC's due consideration of our request, and apologise for any inconvenience caused

Sincerely,
Steel Co., LTD
