

ANTI-DUMPING NOTICE NO. 2015/125

Certain aluminium extrusions

Exported from the People's Republic of China

Findings in relation to a continuation inquiry into anti-dumping measures

Customs Act 1901 – Part XVB

I, Dale Seymour, the Commissioner of the Anti-Dumping Commission, have completed an inquiry, which commenced on 24 April 2015, into whether the expiration of the anti-dumping measures (in the form of a dumping duty notice and a countervailing duty notice) applying to certain aluminium extrusions (aluminium extrusions) exported to Australia from the People's Republic of China (China) would lead, or would be likely to lead to, a continuation of, or a recurrence of, the dumping and subsidisation and the material injury that the measures are intended to prevent.

Findings and recommendations were reported to the Parliamentary Secretary to the Minister for Industry, Innovation and Science (the Parliamentary Secretary) in *Anti-Dumping Commission Report No. 287* (REP 287). The Parliamentary Secretary has considered REP 287 and has accepted the recommendations and reasons for the recommendations, including all material findings of fact or law set out in the report.

Under subsection 269ZHG(1)(b) of the *Customs Act 1901* (the Act), the Parliamentary Secretary has declared that she has decided to secure the continuation of the anti-dumping measures currently applying to aluminium extrusions exported to Australia from China.

The dumping duty notice and the countervailing duty notice continue in force after 28 October 2015. Pursuant to subsections 8(5BAAA)(a) and (c), and 10(3DA)(a) and (c) of the *Customs Tariff (Anti-Dumping) Act 1975* (Dumping Duty Act), the Parliamentary Secretary has not had regard to the desirability of fixing a lesser amount of duty that does not exceed the non-injurious price and, as such, the non-injurious price will have no future application.

The dumping duty that has been determined is an amount worked out in accordance with the combination of fixed and variable duty method pursuant to subsection 5(2) of the *Customs Tariff (Anti-Dumping) Regulation 2013*, as detailed in the table below and the notice has effect accordingly.

The countervailing duty that has been determined is an amount ascertained as a proportion of the export price of the goods pursuant to subsection 10(3B)(a) of the Dumping Duty Act, as detailed in the table below and the notice has effect accordingly.

Exporter	Effective rate of interim dumping duty (fixed component)	Effective rate of interim countervailing duty	Duty method
Guang Ya Aluminium Industries Co., Ltd.	0.0%	4.5%	Dumping – combination of fixed and variable duty method.
PanAsia Aluminium (China) Co., Ltd.	16.5%	5.4%	
Tai Shan City Kam Kiu Aluminium Extrusion Co., Ltd.	2.0%	1.8%	Countervailing – (ad valorem).

Residual exporters #	9.4%	8.1%	
All other and uncooperative exporters (except Tai Ao Aluminium Tai Shan Co., Ltd.)	28.3%	20.2%	

As specified in REP 248.

The actual duty liability may be higher than the effective rate of duty due to a number of factors. Affected parties should contact the Anti-Dumping Commission on telephone number 13 28 46 or email at clientsupport@adcommission.gov.au for further information regarding the actual duty liability in their particular circumstance.
