

PUBLIC RECORD

Request for extension of time to respond to the Second Supplementary Government Questionnaire by the GOC

I am instructed by MOFCOM that responding to this SSGQ is quite a time-consuming exercise.

Collating the responses involves communications between MOFCOM and its advisors in Beijing with three provincial units, three municipalities and three county cities, and also with the Ministry of Finance. MOFCOM has been doing its best but now realizes that the current response date cannot be achieved.

The GOC sincerely requests an extension of time to respond to the SSGQ to Monday 29 April.

Regards
Danny

CUSTOMS AND BORDER PROTECTION'S RESPONSE

The case management team has carefully considered your request on behalf of the GOC for the extension of time to respond to the second supplementary government questionnaire. While Customs and Border Protection acknowledge the detailed response that is required by the GOC (MOFCOM), Customs and Border Protection is not in a position to allow any extension on this occasion due to very tight legislative deadlines.

As you are aware, the statement of essential facts (SEF) for the subsidy investigations are due by the 15 of May 2013, this gives us very limited time to analyse the responses received from the GOC and prepare our reports.
