

Note for file INV 190a and 190b:

The Government of China's public record response to the Government Questionnaire and public record attachments, including responses to particular market situation questions, have been placed on the Public Record of the countervailing investigations into galvanised steel and aluminium zinc coated steel (INV193).

Please refer to public record documents numbers 22 to 31 of INV193.

These documents can also be accessed online by using the following link:
