

AUSTRALIAN CUSTOMS DUMPING NOTICE NO. 2011/53

Quicklime exported from Thailand

Initiation of an investigation into alleged dumping

The Chief Executive Officer (CEO) of the Australian Customs and Border Protection Service (Customs and Border Protection) has initiated an investigation, following an application lodged by Cockburn Cement Limited, a manufacturer of quicklime in Australia. The application seeks the publication of a dumping duty notice in respect of quicklime exported to Australia from Thailand.

The application alleges that quicklime has been exported to Australia at prices less than its normal value and that the dumping has caused material injury to the Australian industry through:

- lost sales;
- lost market share;
- price undercutting;
- price depression;
- reduced sales revenue;
- reduced profit; and
- reduced profitability.

The non-confidential version of the application, available on the public record to interested parties, as defined by subsection 269T(1) of the *Customs Act 1901* (the Act), contains the basis of the alleged dumping.

A notice under subsection 269TC(4) of the Act advising initiation of this investigation was published in *The Australian* newspaper on 31 October 2011.

The goods

The goods the subject of the application are quicklime. The applicant provided further details as follows:

Quicklime is also known as Calcium Oxide as this is the dominant chemical composition of quicklime (CaO). Other common names to describe this product are Burnt Lime and Unslaked Lime. Quicklime is a white to grey, caustic, crystalline solid at room temperature.

The goods are classified to the tariff subheading 2522.10.00 (statistical code 26) of Schedule 3 to the *Customs Tariff Act 1995*. These goods are duty free.

Investigation process

The investigation period is 1 July 2010 to 30 June 2011. Customs and Border Protection will examine exports to Australia of the goods during that period to determine whether dumping has occurred. Customs and Border Protection will examine details of the Australian market from 1 January 2008 for injury analysis purposes.

Where the Minister for Home Affairs (Minister) is satisfied, as to goods of any kind, that:

- (a) the amount of the export price of the goods that have already been exported to Australia is less than the normal value of those goods, and the amount of the export price of like goods that may be exported to Australia in the future may be less than the normal value of the goods; and

- (b) because of that, material injury to an Australian industry producing like goods has been or is being caused or is threatened, or the establishment of an Australian industry producing like goods has been or may be materially hindered;

the Minister may, by public notice, impose interim dumping duties.

Lodgement of submissions

Interested parties are invited to lodge submissions concerning the publication of the dumping duty notice sought in the application no later than the close of business on 10 December 2011, addressed to:

Director Operations 1

Australian Customs and Border Protection Service

5 Constitution Avenue
CANBERRA ACT 2601

Or by email: tmops1@customs.gov.au

Interested parties wishing to participate in the investigation must ensure that submissions are lodged promptly. Interested parties should note that the CEO is not obliged to have regard to a submission received by Customs and Border Protection after the end of the period mentioned above if to do so would, in the CEO's opinion, prevent the timely placement of the statement of essential facts on the public record.

Interested parties may reply to matters raised by other parties during the course of the investigation and in response to the statement of essential facts.

The CEO must maintain a public record of each inquiry. The public record must contain, among other things, a copy of all submissions from interested parties (letters and electronic mail are generally regarded as submissions if they contain information relevant to the inquiry).

Interested parties claiming that information contained in their submission is confidential, or that the publication of the information would adversely affect their business or commercial interests, must:

- provide a summary containing sufficient detail to allow a reasonable understanding of the substance of the information that does not breach that confidentiality or adversely affect those interests, or
- satisfy the CEO that there is no way such a summary can be given to allow a reasonable understanding of the substance of the information.

Submissions containing confidential information must be clearly marked "In-Confidence".

Interested parties must lodge a non-confidential version or a summary of their submission in accordance with the requirement above. In either case, interested parties must provide two copies of each and the non-confidential version will be placed on the public record.

Documents included in the public record are available at <http://adpr.customs.gov.au/Customs/>. Alternatively, the public record may be examined at the office address below during business hours by contacting International Trade Remedies Branch on 02 6275 6547.

Provisional measures

A preliminary affirmative determination may be made not earlier than 60 days after the date of initiation provided that there appears to be sufficient grounds for the publication of a dumping duty notice. In accordance with section 269TD of the Act, provisional measures, in the form of securities in respect of interim dumping duty that may become payable on the goods, may be imposed where a preliminary affirmative determination has been made.

Statement of essential facts

The dates specified in this notice for lodging submissions must be observed to enable Customs and Border Protection to report to the Minister within the legislative timeframe. A statement of essential facts will be placed on the public record by 18 February 2012, or by such later date as the Minister may allow in accordance with section 269ZHI of the Act. The statement will set out the essential facts on which the CEO proposes to base a recommendation to the Minister. That statement will invite interested parties to respond to the issues raised within 20 days of the statement being placed on the public record.

Report to the Minister

Submissions received in response to the statement of essential facts will be taken into account in completing the report and recommendation to the Minister. A recommendation to the Minister will be made in a report on or before 3 April 2012 (or such later date as the Minister may allow), unless the CEO terminates the investigation.

Review Officer

Certain parties will have the right to seek review in accordance with Division 9 of Part XVB of the Act of either a decision by the CEO to terminate the investigation, or a decision of the Minister after considering the CEO's report.
