to publish a dumping duty notice for Case 234**

JFE Steel Corporation notes endorses and reiterates each of its arguments in its previous Application for Review filed in this matter. JFE Steel Corporation has also vetted the submission filed this day on behalf of Total Steel. JFE Steel Corporation supports and approves the elements of that submission and in particular notes the jurisprudence supporting the assertions by each of the companies. To the extent of any inconsistency between the Total Steel and JFE Steel Corporation's submissions from time to time, the latter are to prevail.
