AIP Plan reference code:

Australian Industry Participation Plan Summary - Project Phase

Nominated project proponent: NORTHERN STAR RESOURCES LTD

Project details

Name: KCGM Growth Project

Location: Kalgoorlie, WA

Type: Mine or quarry

Purpose: Upgrade existing facility

Capital expenditure: \$500 million or more

Description: The Kalgoorlie Consolidated Gold Mines (KCGM) operations currently include the Fimiston and Gidji Processing Plants in Kalgoorlie, Western Australia, approximately 600 kilometres east of Perth. The KCGM Fimiston Processing Plant has been expanded on several occasions. The current combined processing rate of the Fimiston and Gidji Processing Plants has typically been 13Mt/a, with rates of up to 15Mt/a recently achieved on softer stockpiled ore. The proposed KCGM Growth Project, once approved, is intended to expand the existing Processing Plant capacity to 23.5Mt/a and, subject to the Final Investment Decision expected in the coming months, will commence during the third quarter of FY2023 and run through until January 2026. The Project's proposed delivery model is structured to have three key packages dealing with enabling works, a major Greenfields (new ore processing facility) EPC Contract and a Brownfields package dealing with all the key tie-ins to the existing Plant. Procurement of goods and services for the Project (including processing plant infrastructure, major equipment packages, office and accommodation buildings, telecommunications tower, civil and concrete works, SMP and EI&C works, demolition, commissioning, engineering design, construction services and power supply and installation) will be conducted during the third quarter of 2023 and for the duration of the Project.

Completion date: 31 Jan 2026

Key goods and services

Indicative list of key goods and services to be acquired for the project:

Key goods and services	Opportunities for Australian entities*	Opportunities for non-Australian entities	Explanation for no opportunities for Australian entities
Goods - SAG Mill	Yes	Yes	
Goods - Ball Mill	Yes	Yes	
Goods - Primary Crusher	Yes	Yes	
Goods - Pebble Crusher	Yes	Yes	
Goods - Flotation Circuit	Yes	Yes	
Goods/Services - Power Supply (Enabling Works)	Yes	No	
Goods/Services - Borefield Works (Enabling Works)	Yes	No	
Goods/Services - Structural, Mechanical and Piping Works (Enabling Works)	Yes	No	
Goods/Services - Building Works (Enabling Works)	Yes	No	
Goods/Services - Civil and Concrete Works (Enabling Works)	Yes	No	
Goods/Services - Earthworks (Enabling Works)	Yes	No	
Goods/Services - Electrical Instrumentation and Communication Works	Yes	No	
Goods/Services - Fire & Water Equipment Works (Enabling Works)	Yes	No	
Goods/Services - Brownfields Works	Yes	No	
Services - Engineering, Procurement and Construction (Plant)	Yes	No	
Services - Design and Feasibility Services (Project)	Yes	No	

* An Australian entity is an entity with an ABN or ACN

Project standards:

- Australian
- International

Supplier information and communication

Project proponent's contact person for supplier enquiries:

Contact person name James Noone
Contact person position Commercial Manager
Phone number 0447783683
E-mail jnoone@nsrltd.com

Project proponent website: nsrltd.com

Project opportunities website: nsrltd.com and icn.org.au

Supplier engagement and communication actions :

- Engage with vendor identification agencies on project opportunities and bid processes
- Conduct supplier information briefings on project opportunities and bid processes
- Issue media releases or ASX announcements on project developments and opportunities
- Directly contact suppliers with information on project opportunities and bid processes

Building Australian industry capability

Supplier capability development actions:

- Recommend suppliers undertake training and/or accreditation
- Provide market intelligence to suppliers

Global supply chain integration actions:

- Support suppliers to register with global supplier databases
- Provide references for high performing suppliers

Feedback process for unsuccessful bidders:

An integral part of the procurement process for the Project, the proponent will be tendering for the supply of essential goods and services. A key element of the tendering process will be the ongoing provision of additional information to suppliers and feedback on further information required to support tender bids. At the culmination of the process, tenders will be assessed and suppliers will be shortlisted. At the conclusion of the tender process, and on the award of the contract package, each unsuccessful tenderer will be formally advised of the outcome of the tender and appropriate and constructive feedback provided on the reasons why the tenderer was unsuccessful and, as necessary, suggestions on how the tenderer might better present its tender proposal on future Project packages or opportunities.
