Australian Industry Participation Plan Summary - Project Phase

Nominated project proponent: Collie Battery Energy Storage Pty Ltd as trustee for the Collie Battery Trust

Project details

Name: Collie Battery Project Stage 1

Location: 4997 Collie-Williams Road, Palmer WA 6225

Type: Electricity facility

Purpose: Establish new facility

Capital expenditure: \$500 million or more

Description: The Collie Battery is Neoen's first major project development in Western Australia and has an approved development planning permit for up to 1,000 MW. It is located 2.5 hours south of Perth near Shotts Substation and connected to the existing 330 kV Western Power transmission line. Preliminary site access works commenced in Q2 2023, and BESS Construction is starting in Q4 2023, with BESS Electrical Installation, Testing and Commissioning to occur throughout 2024. Commercial operation is expected in Q4 2024. Ownership Collie Battery Pty Ltd as trustee for the Collie Battery Trust plans to enter into an 'engineer, procure, construct' (EPC) contract with consortium partners UGL and Tesla to build the project to a size of 200 MW / 800 MWh. UGL engages most suppliers and subcontractors in relation for the Project while Tesla's key focus is the delivery of the batteries and specialised commissioning resources. Collie Battery Pty Ltd as trustee for Collie Battery Trust is a wholly owned subsidiary of Collie Battery Holdco Pty Ltd. This company provides the guarantee and security over its shares held in the Trustee for Collie Battery Trust and its rights under relevant shareholder loans. Collie Battery Pty Ltd as trustee for Collie Battery Trust and Collie Battery Holdco Pty Ltd are a consolidated group. Collie Battery Holdco Pty Ltd is owned by Neoen International SAS (100% shareholder), a wholly owned subsidiary of Neoen SA. Neoen Australia Pty Ltd is a wholly owned subsidiary of Neoen SA and will provide asset and construction management services to Collie Battery Pty Ltd as trustee for Collie Battery Trust.

Completion date: 31 Dec 2024

Supplier engagement and communication actions :

- Promote project opportunities through industry associations
- Engage with vendor identification agencies on project opportunities and bid processes
- Conduct supplier information briefings on project opportunities and bid processes
- Issue media releases or ASX announcements on project developments and opportunities
- Directly contact suppliers with information on project opportunities and bid processes

Building Australian industry capability

Supplier capability development actions:

- Recommend suppliers undertake training and/or accreditation
- Encourage Australian entities to undertake research and development and innovative activities

Global supply chain integration actions:

- Provide references for high performing suppliers

Feedback process for unsuccessful bidders:

Feedback – mainly in the form of verbal feedback - will be provided to Australian entities unsuccessful in their bids to supply key services. While it is impractical to provide detailed feedback to all applicants, entities that meet the pre-requisites but narrowly miss out on the supply opportunity will be consulted. UGL and – where applicable – Neoen will issue a regret e-mail to all unsuccessful applicants – the opportunity to seek feedback will be provided in the regret e-mail. The intended outcome is to create more diversity and opportunities for capable Australian entities to be fully equipped to bid for specific packages in similar projects in the future. Details will be provided as to: • why they were not the preferred bidders; and • what are the relevant training and skills, capability and capacity development activities (if any) the entity should undertake to be successful in future.
