## Australian Industry Participation Plan Summary - Project Phase

---

**Nominated project proponent:** IBERDROLA AUSTRALIA LIMITED

**Other project proponent(s):**

DP GREEN ENERGY PTY LIMITED

### Project details

Name: Callide Wind Farm

Location: Dumgree QLD 4715

Type: Electricity facility

Purpose: Establish new facility

Capital expenditure: \$500 million or more

Description: Callide Wind Farm is located in the Calliope Range, approximately 75 km south-west of Gladstone and 29 km north-east of Biloela in the Banana Shire Council LGA. The project is co-developed by Iberdrola and DP Green Energy under a joint development agreement. The state planning approval was granted on 20 September 2023 by SARA. The approval includes construction and operation of up to 70 wind turbines, 275/33kV site substation, battery energy storage system, 275kV switchyard, 275kV export lines, 33kV reticulation network, internal roads and hardstands, meteorological masts, and ancillary infrastructure including temporary construction compounds, batch plant, laydown areas and permanent operations and maintenance facilities. The project will be constructed under a multi-contract structure, consisting of the following major work packages: 1. Wind Turbine Supply and Installation including inland transportation and public roads upgrade works; 2. Wind Farm Balance of Plant; 3. Generator Connection and Access Agreement for construction of 275kV switchyard and export lines and provision of associated transmission services, and; 4. Owners Engineer services (no subcontracting); In addition, the project intends to enter into a Services Agreement with Wind Turbine OEM for the operation and maintenance of the wind farm. Awarding of above five work packages is expected in September 2024. Bidding has commenced through a formal and competitive tendering process except for Owners Engineer which is planned for tender to start in Q4 2024. Bids will be evaluated against health, safety & environment performance, technical compliance, commercial compliance and costs. Procurement of goods & services is expected to commence from Q4 2024 following contract award and completion of design activities. Parties awarded for work packages 1, 2, 3 and the Services Agreement listed above will become the procurement entities and will be contractually required to comply with the AIP Plan.

Completion date: 31 Dec 2026

## Key goods and services

Indicative list of key goods and services to be acquired for the project:

Key goods and services	Opportunities for Australian entities*	Opportunities for non-Australian entities	Explanation for no opportunities for Australian entities
BOP - Earthworks	Yes	No	
BOP - Materials Supply (road material, quarry, concrete & reinforcing)	Yes	No	
BOP - Road construction incl. dust suppression	Yes	No	
BOP - Foundation construction	Yes	No	
BOP - Construction of site facilities	Yes	No	
BOP - Geotechnical investigation	Yes	No	
BOP - Supply of primary and secondary electrical equipment for substation	Yes	Yes	
BOP - Construction of MV reticulation networks incl. supply of cables	Yes	Yes	
BOP - Electrical design works	Yes	Yes	
BOP - Construction of substation	Yes	No	
GCAA - Supply of primary and secondary electrical equipment for switchyard	Yes	Yes	
GCAA - Construction of switchyard	Yes	No	
GCAA - Construction of export lines	Yes	No	
TSA - Supply of wind turbines incl. nacelles, hubs, blades, and towers	Yes	Yes	
TSA - Shipping incl. custom clearance services	Yes	Yes	
TSA - Inland transportation	Yes	No	
TSA - Public roads upgrade work	Yes	No	
TSA - Wind turbine erection and mechanical completion services incl. plant hire	Yes	No	
Other - Owners Engineer	Yes	No	
Other - Supply of fuel, oil, and other consumables	Yes	No	
Other - Accommodation/Meals/Entertainment	Yes	No	
Other - Labour hire	Yes	No	
Other - Fencing, landscaping, rehabilitation	Yes	No	
Other - Project insurance	Yes	Yes	
Other - Principal certifier	Yes	No	

\* An Australian entity is an entity with an ABN or ACN

Project standards:

Australian  
International

## Supplier information and communication

Project proponent's contact person for supplier enquiries:

**Contact person name** Andy Wang  
**Contact person position** Construction Project Manager  
**Phone number** 0459875019  
**E-mail** andy.wang@iberdrola.com.au

Project proponent website: <https://callidewindfarm.com.au/>

Project opportunities website: Project website: <https://callidewindfarm.com.au/employment/> ICN Gateway: <https://gateway.icn.org.au>

Supplier engagement and communication actions :

- Promote project opportunities through industry associations
- Engage with vendor identification agencies on project opportunities and bid processes
- Conduct supplier information briefings on project opportunities and bid processes
- Directly contact suppliers with information on project opportunities and bid processes

## Building Australian industry capability

Supplier capability development actions:

- Recommend suppliers undertake training and/or accreditation
- Provide market intelligence to suppliers

Global supply chain integration actions:

- Introduce suppliers to global supply chain partners
- Provide references for high performing suppliers

Feedback process for unsuccessful bidders:

Procurement entities will be contractually obligated to offer and provide feedback to Australian entities which were unsuccessful in their bids for the supply of key goods and services (valued at \$1 million or more). Feedback may be written or verbal and will outline the reasons why the bid was not successful, including recommendations of relevant training, skills, capability and capacity development. At the same time, procurement entities will provide to the proponent their feedback responses to Australian entities which were unsuccessful in their bids.

# Australian Industry Participation Plan Summary - Operations Phase

---

**Nominated facility operator:** IBERDROLA AUSTRALIA LIMITED

**Other facility operator(s):**

DP GREEN ENERGY PTY LIMITED
