

Australian Jobs Act 2013

AIP Plan reference code: 7T3BBZJT

Australian Industry Participation Plan Summary - Project Phase

Nominated project proponent: GREEN STEEL OF WA COLLIE PTY LTD

Project details

Name: Collie Steel Mill

Location: 154 Boys Home Road, Palmer, WA 6225

Type: Factory

Purpose: Establish new facility

Capital expenditure: \$500 million or more

Description: Green Steel of WA Collie (GSWAC) is developing the Collie Steel Mill. It will recycle scrap metal (500ktpa) to produce (450ktpa) reinforcing bar (rebar) and wired rod predominantly for Australian consumption. It uses an electric arc furnace with endless casting and rolling process which significantly reduce energy consumption compared to blast furnace plants which produce billets (an intermediate steel product). As well as building our state's skills and capabilities in green steelmaking, the project will be our state's first real step towards producing green steel and capturing our share of the \$600B steel manufacturing value chain. As Australia's first steel mill in over 30 years, this 450ktpa manufacturing project will help provide certainty and a Just Transition for the people of Collie. It will create over 500 long term, highly skilled, advanced manufacturing jobs for coal and power workers whom most impacted by Collie's transition. The project will also contribute to reducing global CO2 emissions by at least 200,000 tonnes annually from exporting the scrap metal. The project is currently finalising its feasibility study to reach financial investment decision (FID) which is targeted to be completed by mid 2025. The construction is expected to take up to 24 months. A local contractor has been engaged to carry out the front end engineering design (FEED) which includes a high-level scoping of the goods and services. The tendering activities will commence post FEED.

Completion date: 30 Jun 2027

Key goods and services

Indicative list of key goods and services to be acquired for the project:

Key goods and services	Opportunities for Australian entities*	Opportunities for non-Australian entities	Explanation for no opportunities for Australian entities
Electric Arc Furnace and Associated Technology Equipment	Yes	Yes	
Earthworks and Roadworks	Yes	No	
Refactory	Yes	Yes	
Structural Steel	Yes	Yes	
Roof and Wall Cladding	Yes	Yes	
Electrical Services and Associated Cabling Works	Yes	Yes	
Security System	Yes	No	
Fire system	Yes	No	
Modular Building Design, Manufacture and Install	Yes	Yes	
Water Treatment Plant	Yes	Yes	
Rail Track Works	Yes	No	
Power Substation Supply	Yes	Yes	
Electrical Switchyard Supply	Yes	Yes	
Industrial Gas Works	Yes	No	
Natural Gas Works	Yes	No	
Hydraulic Piping Supply	Yes	Yes	
Structural Installation Works	Yes	No	
Owner's Engineer and Team	Yes	No	
Concrete Supply	Yes	No	
Concrete FRP	Yes	No	
Concrete Installation	Yes	No	
Cast-in Supply	Yes	No	
Safety Railing and Guards	Yes	No	

* An Australian entity is an entity with an ABN or ACN

Project standards:

- Australian
- International

Supplier information and communication

Project proponent's contact person for supplier enquiries:

Contact person name Very Lim
Contact person position Commercial and Approvals Manager
Phone number 0411832899
E-mail very.lim@greensteelwa.com.au

Project proponent website: <https://www.greensteelwa.com.au/>

Project opportunities website: <https://www.greensteelwa.com.au/>

Supplier engagement and communication actions :

- Promote project opportunities through industry associations
- Issue media releases or ASX announcements on project developments and opportunities
- Develop and distribute a supplier information guide for the project
- Directly contact suppliers with information on project opportunities and bid processes

Building Australian industry capability

Supplier capability development actions:

- Provide market intelligence to suppliers
- Direct Engagement to Australian Entities

Global supply chain integration actions:

- Introduce suppliers to global supply chain partners
- Provide references for high performing suppliers

Feedback process for unsuccessful bidders:

The feedback process for unsuccessful bidders will ensure transparency, and support the development of Australian suppliers in competitive tender processes. When an Australian supplier is unsuccessful in a bid, the project proponent will ensure that procurement entities provide feedback, outlining the reasons for the decision and offering constructive guidance for future opportunities. GSWAC will deliver tailored feedback, including written notifications (such as unsuccessful letters or emails) with further discussion opportunity, including capability development activities.

Australian Industry Participation Plan Summary - Operations Phase

Nominated facility operator: GREEN STEEL OF WA COLLIE PTY LTD

Facility details

Name: Collie Steel Mill

Location: 154 Boys Home Road, Palmer, WA 6225

Type: Factory

Key goods and services

Indicative list of key goods and services to be acquired for the new facility:

Key goods and services	Opportunities for Australian entities*	Opportunities for non-Australian entities	Explanation for no opportunities for Australian entities
Refractory	Yes	Yes	
Rail Haulage	Yes	No	
Scrap Metal Supply	Yes	No	
Transport and Logistic	Yes	No	
Industrial Gas Supply	Yes	No	
Natural Gas Supply	Yes	No	
Diesel Supply	Yes	No	
Consumable Supply	Yes	Yes	
Waste Disposal	Yes	No	
Slag Processing	Yes	No	
Facility Management	Yes	No	
Maintenance Services	Yes	No	
Insurance Provider	Yes	No	
IT System	Yes	No	
Power Supply	Yes	No	

*An Australian entity is an entity with an ABN or ACN
